Hb. Support area (figure 3)

15 Support buildings

This area is associated with area Ae. It is not externally secured although one building within the area is secured by a single fence.

La. Sub caliber range (figure 3 and 4)

1 Range building

This range is associated with area Ba.

Lb. Sub caliber range (figure 3)

This area consists of two adjacent sub caliber ranges and is associated with area Ae.

Q. Infantry training areas

Infantry training within this installation consists of small areas of foxholes and trenches adjacent to areas Ab, Ac, Ad, Ae and Af. A small probable combined infantry and wheeled vehicle driver training area is located immediately southwest of area Af.

P.I. REMARKS

This installation has been reviewed on photography from [] to determine the earliest date of presence of armored vehicles within this installation.

Photography of [] revealed the presence of a probable tank /assault gun storage and maintenance facility within the installation. With the exception of the tank sub caliber range "La," first observed on [] coverage, there has been no apparent change to this facility.

There was no apparent track activity observed in the probable tank/assault gun storage and maintenance facility or the installation training area "G" on the [] coverage. Light to moderate track activity was observed in this facility and in the training area "G" on the [] coverage.

Tanks or assault guns were not observed on any of the coverage. Vehicular and other training activity has been light throughout the entire period of time.
